01 PROFILE

Senior **PHP / Laravel engineer** with **8+ years** shipping production web platforms across e-commerce, fintech, parking, real estate and government sectors. Now focused on integrating **LLMs (OpenAI & Claude)** into Laravel apps — building AI-powered SaaS features like smart search, summarization, workflow automation and chatbots. Author of **Larite**, an open-source PHP MVC framework, plus multiple Laravel packages.

8+ YEARS EXP.	30 PRODUCTS SHIPPED	6 OSS PACKAGES	19+ 3RD-PARTY APIS
-------------------------	-------------------------------	--------------------------	------------------------------

◆ **30 platforms shipped** for clients in Saudi Arabia, Kuwait, USA, UAE & Pakistan — e-commerce, mobility, government & CMS.

◆ **19+ integrations** delivered: payment gateways, push/notification services & social/geo APIs.

◆ **6 open-source packages** authored and published, including the Larite PHP MVC framework.

● **Early adopter** of LLM-powered features in production Laravel SaaS — OpenAI & Claude.

◆ AI ENGINEERING CAPABILITIES

- ▶ OpenAI & Claude API integration into Laravel apps (chat, tools, streaming, function calling).
- ▶ AI-powered SaaS features: smart search, document summaries, semantic notifications, auto-tagging.
- ▶ Prompt engineering for reliable, production-ready LLM output.
- ▶ AI chatbot development with Laravel backends, session memory and moderation.

02 EXPERIENCE

● Senior Software Engineer · Mawqiftech — Kuwait (Remote)
